

TEACHER REPORT

Name of Teacher	Fu Yuan, Kevin Lam
Module	GER1000-Quantitative Reasoning (TUTORIAL)
Academic Year/Sem	2020/2021 - SEM 1
Department	OFFICE OF THE SR DY PRESIDENT & PROVOST
Faculty	NON-FACULTY-BASED DEPARTMENTS

Raters	Student
Responded	175
Invited	286
Response Ratio	61%

Note:

Class Size = Invited; Response Size = Responded; Response Rate = Response Ratio

A. GUIDELINES FOR INTERPRETING THE REPORT

The teacher evaluation report is for developmental purposes and is meant to help identify strengths and areas for improvement. Please consider the following recommendations that will aid in interpreting the results:

1. Examine the report by taking note of patterns in order to consider how best to act on the feedback your students have taken the time to provide. Use the reflection section at the end to reflect upon how you might act on the feedback.
2. These evaluations stem from student perception and thus constitute one source of evidence among others as to the quality of your teaching. Any response to the feedback should be based on the most representative results rather than on outlying responses.
3. Upon getting a general sense as to what has gone well, and which areas may require attention and improvement, it is important to drill down to the related questions. These questions can help guide future action if feedback from students suggest areas for improvement.
4. Keep both the likert scale and written comments in mind while reading through the report. High scores (4+) suggest student consensus indicating a strength. On the other hand, low scores (2-) should be considered as an area that requires immediate developmental focus based on student feedback.

B. NOMINATION FOR TEACHING AWARDS

	Response Count
I would like to nominate Fu Yuan, Kevin Lam for teaching awards	84

Comment
- Provide a good atmosphere for students when teaching
- Mr Kevin lam is a very helpful TA. He tries his best to make the class engaging and interesting.
- managed to make something so quantitative in nature interesting for all to learn. related ger concepts to stuff we learn in everyday life. did not simply use material from luminus to conduct his lessons but went further to prepare games and interactive sessions to further enhance our learning. commendable effort considering the limitations of covid
- A teacher that always aims to interact with students, making class a bit more fun
- Makes his own slides to teach each of the topics covered in the module more in–depth, rather than spend time during tutorials to go through the tutorial questions.
- His teaching methods was rather unique and it was helpful as it helps me to learn well. He is rather outgoing and he was able to keep the class going and rather lively. It was a pleasure to be in his class.
- He is a fun tutor and pretty good in explaining the answer
- His efforts and enthusiasm in engaging us in a fun yet educational manner deserves to be applauded.
- His intention is to ensure that we understand the topics well. He focuses on the learning process and makes it fun as well.
- Very patient and inspiring. Kevin is also able to explain very technical terms in simple language, such that students from non–relevant background are able to understand, and take part in discussion. Starts off each tutorial lesson on a very good note, and the lessons do not get boring.
- Passionate in teaching and guiding students to greater heights. Reasons as stated in his strengths.
- He uses unconventional ways of teaching the weekly topics, is friendly, engaging and approachable, but at the same time is knowledgeable and understands what he teaches. It was a joy being his student as he made the GER1000 tutorials more interesting
- Professor is passionate and dedicated to teaching his students, making sure they understand the content etc.
- Very professional and the topic he gave us really help us understand the concepts. Moreover, the task he gave us is very meaningful.
- I think that Mr Lam is not only a good teacher, but he is also able to engage the students and make the module more fun to learn and understand.
- Kevin is meticulous and is always trying to engage us , with the interactive sections of his lessons such as quizzes including every student
- I genuinely really enjoyed his lessons because he made such an effort to connect with us – telling jokes, welcoming each one of us when we enter the room (even when he is probably tired from a full day of teaching)
- really good with his explanations
- He is clear in his teaching and allows us to think better in his class.
- N/A.
- He is a friendly, approachable teacher that genuinely cares about helping us. He is always open for feedback and replies quickly via email when we have any questions.
- Interactive, engaging and responsive
- He puts in the effort to help his students understand key concepts and makes learning fun and interactive
- He was the only tutor who made lessons fun and interesting even though it was online and the content was hard to understand. he promptly replied all emails and questions despite them being last minute.
- He really puts in effort in his teaching preparations and in trying to engage the students during the tutorials.
- He attempts to make lessons more interesting even though it is through zoom.
- He is very enthusiastic and passionate about the subject and goes out of his way to make lessons interesting.
- He is able to engage students during his class through creating games and makes his students feel involved at the start of his lesson by greeting everyone

Comment
- He makes lessons very engaging
- He puts in a lot of effort and is patient when clarifying student's doubts. Also, he is very engaging during tutorials and tweaks the conventional way of teaching the content, making it more interesting:)
- He's definitely put in effort to interact with the students and make the module not as dry as it would be otherwise.
- Kevin is an engaging and well-prepared tutor, and I always look forward to attending his tutorials. His lessons are fun and interactive, and his methods of involving the entire class through in-class-activities (quizzes, games) are refreshing and effective at conveying the knowledge of the module. He is also a very personal tutor, making the effort to engage his students personally, and he remembers details about his students very well. In all, attending his tutorials makes a student feel heard and respected, as well as having a better grasp of the concepts in the learning objectives in the module.
- He gives his all during tutorial time slots. Stays back to wait for student enquiries even after the session. Prompt in replying email sent by students for clarification
- hes nice
- He puts in a lot of effort in his lessons. Knowing that some students might find this module challenging and dry, he tries his best to keep his lessons light, at the same time ensuring that learning is taking place.
- Went above and beyond to develop lesson content to make our tutorials more interesting while teaching us about hypothesis testing and statistics in a very applicable manner. Also tries to engage and get to know each of us.
- He inspires my interest in GER, is dedicated and obviously puts in a lot of thought into his lessons so as to engage yet enrich his students.
- It is clear that he has a passion for teaching and that he works very hard to prepare for lessons
- Very capable in educating others
- goes out of his way to make lessons fun for all and made me more interested in the module
-
- Goes the extra mile to modify lessons to make it interesting and engaging for students, while making sure that learning is maximised
- I REMEMBER NOW. he's very passionate in the thing he teaches which makes the classes entertaining because he knows how to convey that passion into bite-sized content for us to easily consume and enjoy.
- Took his own time/effort to come up with an engaging game that incorporates learning point of the course. Very engaging tutor.
- goes out of his way to make sure we fully understand the concept. patient and passionate. listens to his students
- Kevin is very friendly and teach the class in a relaxing and interesting way, which makes students feel no pressure.
- I was a bit apprehensive of online lessons in general because I think online lessons would not be as effective as in real life lessons but I think Kevin did a very good job in making these lessons as effective as possible. He also puts in a lot of effort for his students by coming up with the game and sends us detailed information on our projects.
- He makes effort to explain concept to ensure that students understands it.
- he is chill
- He tries his best to make the lesson engaging.
- Humorous teacher
- He is a very patient teacher :)
- Strong command of the module content, put in extra effort to create an easy to play game that teaches us the concepts clearly.
- He is a kind teacher who always tries to make lessons fun and engaging (for example, teaching us concepts through a class game).
- He is a innovative teacher who is passionate about his subject and strives to spread this passion to others.
- He really helped to make this module interesting an enjoyable for the students. Even my friends in the same tutorial say that he really peaked their interests with his methods of teaching
- Very engaging teacher
- He puts in a lot of effort to engage our class and answer our questions
- He tried his best to teach a subject which most people aren't very interested in.
- Thank you for the interactive and interesting lessons; they were fun and engaging at the same time!
- Extremely dedicated
- Clear and concise explanations, patient teacher
- he makes tutorials interesting and applicable. he also promptly replies to our queries and helps us out greatly.

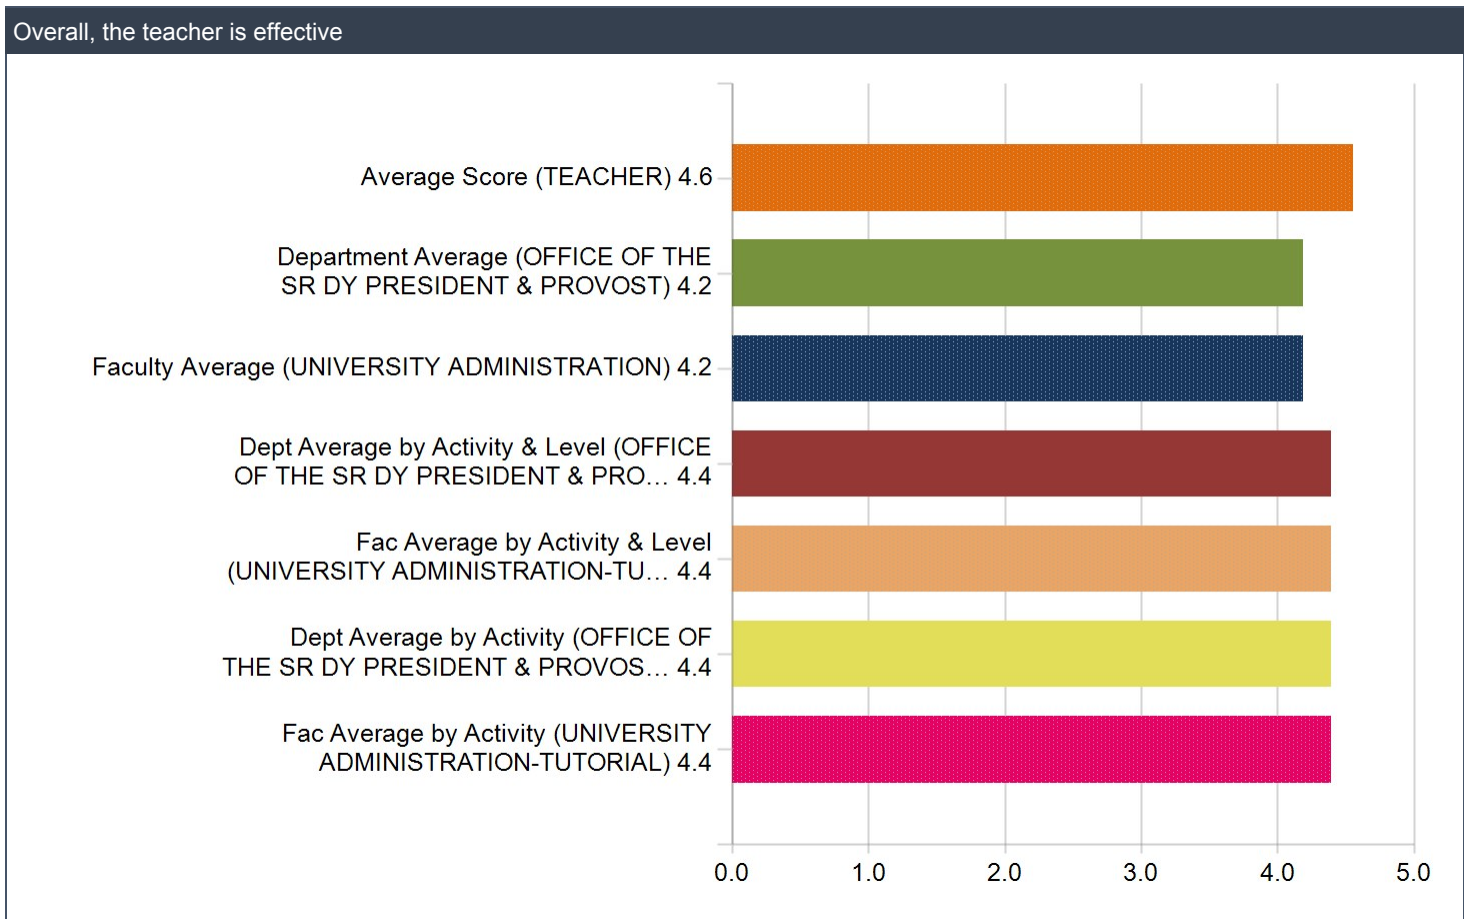

Comment
- He is a very good tutor and really cares about our learning and also the things that he is teaching
- He is able to make a content heavy module interesting and easier to understand.
- Kevin incorporates quizzes and games into his lesson which makes it engaging and also teaching us about concepts
- He prepares his lessons well with good slides that enhances my learning, together with fun and educational games that helps me link the theory in practice.
- Puts in outstanding effort into his tutorials and always understanding to student queries. I feel a teacher like Kevin should be recognised for his outstanding efforts.
- Passionate and makes an effort to help his students
- He is very helpful in nature and explain to us patiently in the aspect of the terminology. Additionally, he also try to incorporate different methods in teaching so that the students are well engaged in the topic.
- He's really nice and I feel like he was a good introduction to statistics in university.
- He is passionate in teaching and he makes lessons enjoyable through his style of teaching. His approachable and kind demeanour helps us get through a technical lesson.
- Frequently use analogies to explain concepts
- he really tries his best.
- He is very dedicated in his field of study and is able to capture the class's attention and introduce interesting ways to teach about a concept
- He has good knowledge and knows how to connect students in the classroom
- Friendly tutor who is willing to help and provides clear explanation to prevent misunderstandings of the content delivered
- He tries to think of many effective ways so that students like us can understand the content very well.
- He makes the effort to try to get to know the students even though it is online and prepares for each tutorial diligently. He is always very enthusiastic in teaching the subject matter and encourages class participation. I personally enjoyed his tutorial sessions.
- He goes out of his way to try and make his lessons as engaging as possible. For example, on one of his tutorials, instead of simply going through the tutorial simply, he created a game through an excel sheet with the concepts of that tutorial session in mind to keep the lesson interesting and worthwhile.
- he seems very passionate in his teaching and tries his best to make the material fun for everyone with different passions. he makes things accessible
- Good teacher, clear and concise, and makes lessons engaging
- Very well put teaching
- He is a good teacher.
- He is a very understanding and knowledgeable TA. He is also very patient when giving explanations because some of the topics in the module can be pretty tricky. Overall a very good TA
- Kevin is very passionate about what he is teaching and engages the students well. He tries to make class materials more relatable which is commendable.

C. STUDENT FEEDBACK SCORES

(i) Rating Score

Question	Average Score (TEACHER)		Department Average (OFFICE OF THE SR DY PRESIDENT & PROVOST)		Faculty Average (UNIVERSITY ADMINISTRATION)	
	Mean	Standard Deviation	Mean	Standard Deviation	Mean	Standard Deviation
Overall, the teacher is effective.	4.6	0.6	4.2	0.7	4.2	0.7

The teacher provided timely and useful feedback.	4.6	4.5	4.5
The teacher has increased my interest in the subject.	4.3	4.0	4.2

D. STRENGTHS

What are Fu Yuan, Kevin Lam's strengths?

Comments
Helpful and very willing to help
Friendly tutorials and engaging
HE introduces an element of fun into his tutorials and he shows us through examples how we can apply the concept learnt to our life. He also shows care for the students. His way of giving us opportunities to answer questions is non-threatening and makes tutorials much more enjoyable.
engaging
He makes concepts clear and is very approachable if we have any questions
Teaches in his own methods, which I find to be more effective.
He was rather engaging and often encourage his students to speak up. He gave us opportunity to express any questions or our opinions. His classes are rather fun as there was not much restriction on tutorial homework but rather he devised his own interactive ways of helping us to learn. This is a rather unique method as most tutors would follow the book or protocol.
Very patient and able to answer questions from students Always tries to engage the students
He put some fun games inside the tutorial to make the atmosphere more fun but it also involves material from the lecture.
He is very patient and elaborative in his teachings.
1. Very inspiring, makes learning of this module fun 2. Very encouraging 3. Able to explain technical and statistical content well, without complicating any terms 4. Sends tutorial slides early, which is good to enhance class participation 5. Uses materials well to engage learning during tutorials 6. Able to answer any queries that students have, and is very patient, ensuring that the students understand the concepts.
Well prepared for lesson. He has a clear goal of what he wants his lessons to be like and does not do anything unnecessary, only covers concepts and topics that will be tested/used in the module. Provides useful feedbacks for projects. Even makes class fun and interesting by incorporating different styles, e.g. games. Listens to our problems when we are facing any and gives useful advice as well.
1. Straight to the point – he focuses on the important topics that is linked to the projects through examples during tutorials 2. Probability game – very fun, at the same time taught me about probability and ways to see it 3. Approachable and friendly
He is always patient and provides constructive feedback for students.
Very friendly and nice to his students. Will teach quantitative reasoning concepts until every student understands, using various examples and perspectives.
Very professional and the topic he gave us really help us understand the concepts.
Preparing tutorials that are fun and interesting.
Clear, and makes it a point to make lessons interesting.
engaging and does his best to help his students learn
Mr Lam always makes tutorials fun and interactive. He also makes it easier to understand this module
teaches QR in a creative way
He is very dedicated to teaching, even when there seems to be no response from the class, he still remains enthusiastic and makes an effort to connect with the students. I really appreciated that and looked forward to it :)

Comments
He's really helpful and clear in his delivery
changing and adapting the tutorial lessons so we can understand and learn better
He is friendly and willing to clarify doubts we may have during tutorial lessons.
He is very clear in his teachings and I appreciate that he gives very clear instructions as well. I liked that he made his tutorials very engaging and fun by constantly allowing for us to do activities that cause us to use our knowledge from the subject content. He is very willing to explain subject content that we may not be sure of which is something that I appreciate.
patient, clear explanations, receptive to feedbacks throughout the semester
Interactive, engaging and responsive
Clear and concise
– knows how to engage the students making lessons fun even though the content can be dry
He's very engaging and teaches the concepts in interesting manner, for a generalised module.
uses games to make learning more fun
His tutorials are interactive and easy to understand.
Enthusiasm in class and willingness to make it interesting
He would always greet everyone of us whenever we enter the online class which makes the lesson less intimidating. He would even create games for everyone to be actively involved, making the lesson more engaging. He is able to connect with the student easily.
he is very friendly and engaging as a tutor and is always willing to take the time to tell us how to improve
Class was interesting and explanation was clear. Questions also allowed me to clarify my thinking
Took initiative to make lessons more interesting and engaging through games!
He makes the lesson engaging by providing games and giving us a breakdown on the steps. He also explains topic/concepts well
He uses alternative teaching methods which liven the class.
Encouraging and prompting style of teaching
Adaptability to COVID–induced online conduct of lessons
his ability to make tutorial sessions engaging with relevant explanation and analogy used
provides very fun, chill tutorials
He is engaging. He tries his best to keep his lessons light while ensuring that learning is taking place.
Always willing to help students for any issues encountered
Excellent tutor! Made an effort to make lessons more interesting and to teach us what is actually applicable and interesting. GER1000 tutorial was enjoyable and I learnt a lot. Teaches what is useful and essential, very concise.
He is engaging and he makes me interested in an area I have interest in. He breaks down the concepts for easy understanding. He innovates ways to teach lessons.
He is able to explain difficult concepts in a way which is easy to understand, and he puts a lot of effort into making class engaging and enjoyable.
Explains the concepts very well
good at expressing himself
Enthusiastic, gives clear explanations
very engaging and tries his best to make lessons fun to help make learning better and more efficient
Mr Lam is very engaging and enthusiastic about teaching our class.
Very clear explanations given, puts in extra effort in making lessons engaging
He is very familiar with the things he is teaching and well prepared, so he directs the class wonderfully. he is very relaxed which causes me to feel relaxed and helps me focus as well as understand the lessons since I'm in a better headspace. very friendly as well and I enjoy his lessons. lessons are fun with his games and he tries his best to understand his students might not come from the best mathematical backgrounds and caters to that. there was one more thing I thought about when I was writing on what to improve, but I forgot. don't worry it is a compliment.
Kevin is a very engaging and friendly tutor. He tries to come up with ideas for online activities to be conducted during the tutorial classes so as to allow students to understand the concepts better. He also changed the assessment component criteria for group projects for his tutorial groups as he wanted students to achieve the learning outcomes intended for the module.
Very engaging tutor, assuming he came up with a game that incorporates GER learning points for his students. His marking style is also very fair.

Comments
Kevin's strengths was that he really made an effort to help his students and help them score. He also tried his best to make his lessons fun and interactive by incorporating fun games into his teaching.
He is able to make the lessons fun and engaging for everyone. For example, he came up with a fun game that we are all very familiar with and used it to help us better understand the concept of probabilities. Since tutorials are not graded, he quickly skimmed through some of the harder tutorial questions in the form of MCQ which help saves time and yet we managed to learn these hard concepts. He spent more time on project-related work which I think is very smart of him as projects are of a high weightage. He is also easy to reach out to and provides quick and informative responses. He is also very casual with us which makes us feel more attached and hence more comfortable during his lessons.
Explaining the concept in a way that it is easier for students to understand
Tutorial classes are engaging and interesting
He is personable and able to translate principles of the subject into easy to digest lessons.
he is quite chill
His lessons are interesting and he tries to think of different way to conduct the lessons in order to engage the students.
He is very friendly and is willing to attend to students who have questions even after the tutorial session has ended
He makes tutorial sessions very engaging without sacrificing on our learning. He is also very serious about teaching us.
Friendly and straight to the point style of teaching.
very engaging, can click well with
Very clear and engaging, I would 200% have rather he be the lecturer in the videos since he explains concepts much more clearly.
He's an effective teacher who is easily approachable and clearly explains different concepts.
He accepts a different view/analysis towards the data and poses questions to refine our thinking
He is a hardworking and sociable individual who does his best to make lessons more engaging. He is very knowledgeable and well versed in the subject he is teaching as well.
He makes tutorials very interesting. He teaches us more than what there is on the tutorials.
Very engaging and knowledgeable
He is engaging and enthusiastic. He thinks of creative ways to make his lessons interesting.
He is meticulous, takes time to explain things thoroughly, and is generally friendly and approachable. He also checks his online platform, Microsoft Teams regularly, which is a great help as I never had to wait a long time to have my questions answered.
Extremely outspoken and friendly. Willing to put in an extensive amount of effort in designing his own tutorial sessions to make them much more lively.
He is very caring and though he only sees us every alternate week, he actually takes the time to get to know us and tries his very best to explain concepts and clear any doubts that we may have. He also managed to make GER quite fun because he incorporated alot of creative and interesting games for us in order to test our understanding and making GER fun. I think he really cares about this subject and enjoys teaching it and honestly is one of my best tutors.
His tutorial sessions are very interactive and interesting allowing me to learn through application.
patient, detailed
patient
Get me thinking about the subject
He is very friendly and encourage discussion
Puts in effort in his tutorials, goes the extra mile to make tutorials fun and interesting for students
Friendly
Provide creatives learning methodology for us which includes game activity that promotes interactions between the class.
He's very nice and friendly!
Very engaging and is able to explain concepts in a comprehensible manner. I really like his style of teaching!
Kevin makes use of interactive activities to keep learning engaging and is able to help students understand content better
willing to listen and takes his time to explain.
Kevin was a very engaging tutor and really helped with the class's understanding through his slides and examples. He encourages class participation through facilitating games relevant to the concepts we are learning
Interesting classes
Kevin is very understanding and nice to his students.

Comments
Very engaging and he makes the content less dry by explaining it through games, and he also encourages everyone to participate
He is very engaging and communicates clearly. His energy makes GER tutorials better than usual.
Delivers concepts with easy-to-understand examples and comparison. Strong sense of enthusiasm and involvement with material that he is teaching.
Funny lad. Always so bright.
Kevin is a very cheerful TA. He has a vast knowledge on the module and is able to explain and breakdown concepts to us. He is friendly and patient which makes it easy for me to ask him questions.
Very engaging
easy to relate to and engaging
He keeps his program structured, so that's good.
He will always try to make the tutorials more engaging through the use of games and short group tasks and checks on our understanding of content through those activities and MCQ questions. Overall, he is really engaging, focused on the objectives he set for each tutorial and tries different methods of teaching.
clear explanations and engaging activities to allow us to apply our knowledge
Kevin is able to deliver the key messages of the module vry effectively. He does not shone away from questions and is very approachable.
He is very knowledgeable in the subject matter and is able to communicate ideas efficiently. Makes use of analogies and examples well to teach concepts. He always seek to improve by asking for feedback from students
He is very committed to providing the best possible education given the current circumstances, and is very enthusiastic in his lessons.
he has a very friendly aura that allows me to be comfortable to make mistakes. he also makes effort to make sure the material can be digested by everyone
Makes lessons interesting, and lets us apply the concepts learnt to real world situations
He puts in his best efforts to make online tutorials interesting and engaging. He is also willing to patiently listen and explain to clarify our doubts and correct our misconceptions. Even if we got the answers wrong, he did not react in a way that would scare us and not speak up in class again.
very knowledgeable about the topics. He is also very understanding, engaging and patient. He gives straightforward answers to all questions asked as well.
Creative and engaging lessons!
Interesting lessons, engaging teacher Positive
he comes to tutorial each week full of energy! really appreciate it esp during this covid times :) he is enthusiastic when answering any queries & patient when we take a bit longer to answer questions
engaging, tries his best to explain in simple terms so we can understand. he also takes the students' questions seriously no matter what and is patient in correcting our mistakes
Engaging, relatable and provides really good summaries of lesson materials and provide clear guidelines on projects.

E. AREAS FOR IMPROVEMENT

What improvements would you suggest to Fu Yuan, Kevin Lam?

Comments
Using a platform other than Teams would be preferred
Na
Include more questions during tutorials for more exposure
NIL.
Talk slower
The difficulty of tutorials could be enhanced, can include tests on concepts, since I feel that many students did not put in effort in understanding key concepts, and that makes the team project hard. Or we could have individual projects? I do not wish to see free-loaders.

Comments
Nothing much but keep it up Kevin!
None!
nil
I feel that Mr Lam speaks rather fast sometimes so it's a little hard to catch what he is saying.
lecture less and play more games as those were what got me understanding the concepts better
Some parts of the harder concepts were gone through quite fast, I wasn't able to catch it, and perhaps can make the tutorial discussions more similar to the tutorial worksheet questions (esp for harder concepts)
None that I can think of
I think that he could go abit slower in explaining things especially for people who struggle with such math-related subjects. Although I do understand that it could be a time- issue so I do not exactly blame him.
Maybe can consider to use Zoom instead :)
NIL
– nothing!! thank you for your effort in teaching us
NIL
No improvements!
Tutorials were a little fast at times
Please go through the tutorials instead of coming up with your own lesson plans.
nil
Sometimes he goes a bit fast which I understand is due to the time constraint but I felt it was a bit hard for me to catch everything.
NA
NA
NA.
nil
NIL
nil
Sometimes pop by the students breakout rooms during certain group activities to check whether we are on the right track.
can't really think of any at the top of my head because i think for a 2 hour period, his teaching style is good to hold my attention and make me engage with the topic. i wish him the best for the 3-hour tutorials :) i like the games though but don't need to pressure yourself to always come up with games haha.
–
It may be a good idea to engage in more group work in our project groups especially for the tutorial questions to foster better group cohesion as well as provides confidence in students to volunteering to answer the harder questions.
–
NIL
maybe go through the tutorial questions more in depth
Nil
NA
Can afford to slow down at times.
nil
None, sorry prof that generally most do not take GER seriously, your tutorials are really great
NA
NIL
nil
Time management could be a bit better. sometimes he ends tutorials late but other than that all is good.
The pace of some tutorials are too fast.
I think he could work on the pacing of his lessons (ie. time management) but I understand that this is not easy to overcome given the constraints of a less than 2h tutorial.
None! He is a good tutor.

Comments
None, very good tutor.
–
not much
NIL
I feel like the tutorials did not really help to prepare us for the group project, which was a important part of our module grade. I would like to see more tutorial time dedicated to exploring Excel, maybe?
Nil
Nil
he is fine.
Keep up the positive attitude!
He's great so nothing much
–
Nothing much. He's a cool lecturer.
nil
speak more slowly when teaching new content
At times, he may not be that direct in his response so that can be a little better :)
Adhere to the time slot of the tutorial as some of us have lessons after the tutorial.
Nil
N.A.
–
sometimes he can go a bit too fast but it's okay because i can catch up eventually
nil
–
Please speak slower! Not every student is good in GER1000 so it is difficult to understand when you speak fast. When you speak quickly, my group & I found it difficult to understand your instructions and always get lost each time we have to break out for discussions.
tbh not a fan of microsoft teams since for some reason the first two tutorials i couldnt see anyone :-(but i managed to resolve the problem -> not his fault but maybe could shift tutorials to zoom then use microsoft teams for uploading the slides? :)
when no one wants to volunteer to answer a question, dont give up and explain it to us yourself hahahah...can just call on someone nicely
None

F. SELF-REFLECTION

1. When comparing these results to the previous year's results, what areas have shown improvement?
2. What areas remain to be improved and what are the necessary steps / actions to do so?
3. Are there colleagues who could potentially guide me?
4. Are there issues that require departmental or institutional support?
